**I am standing by the river, and all I see is your face  
I feel the warm sunshine, I feel your touch so fine  
All I see is your face**

**In my mind love is a river with the wind gently kissing  
Down upon the ripples that sparkle in the day so fine  
In my mind love is a river**

**CHORUS**

**Cool clear water is rushing by  
My heart like a stone thrown into you love  
Skips three times then sinks to live forever  
In the cool clear waters of your heart**

**In my life there is a river winding thru page after page  
Calmness as in our dreams and the whitecaps of reality  
Winding thru page after page**

**In my past there is a river winding down and far away  
Thoughts of you holding me tight carry me sweetly thru the night  
In my past there is a river**

**And the river running wild and free  
Flowing stronger as it brings my love to me**

**CHORUS X 2**

**Repeat “In the cool clear waters of your heart”**
