

Lake Superior Moonlight – Wildfire Gypsies

It's been four months since we packed our trunks
And followed the Eastbound road
Trying to find what was hiding behind, the cart we continued to load
Now like a dream we awaken it seems, to find it had taken control
No piece of mind not a minute of time
Was spent on the things we love most

Bridge

We lost ourselves in the rain
Now we can wake up and see the stars again

Chorus

Lake Superior Moonlight, The feeling was just right
The perfect emotion to go with the notion
The sound of the waves roll you'd think you were seaside
Losing yourself in Superior moonlight
Losing yourself in Superior Moonlight

I've done what I can to be a good man
But never was sure what that meant
And I know it's more than keeping the score
Or paying the bills and the rent
But now that we're here it all feels so clear
I wonder why I couldn't see
That in the end you were always my friend
I thank you for waiting for me

Bridge

Chorus

Losing yourself in Superior Moonlight
